Project Description:

This project originally involved structured cabling only. MOSS is currently handling new moves, adds, and changes for established facilities and any new construction. Bissell is also using MOSS as consultant for design of structured cabling in new offices and manufacturing facilities.

Product Solution:

- Original wiring: Nordx
- Current phase: Cat 6 Systimax

Results/Benefits:

Since the beginning of the relationship, MOSS has provided a reliable and flexible network structured cabling system that can handle changes and expansion today and into the future.

Making technology work for business.
